T-Pole® 300

R2.033108

With the T-Pole® 300 from Tex Visions, you can display your company or product flag indoors. The T-Pole® 300 is a perfect advertising tool for trade shows, indoor events, lobbies, and shopping malls. This unique advertising innovation from Tex Visions is a premium alternative to common displays or banners to present your brand or product. The powerful but quiet air circulation system in the base generates an air stream that will constantly move the flag. The T-Pole® 300 consists of only three parts, making it easy to transport. It is also easy to assemble and requires no additional tools. Set yourself apart from the competition with the T-Pole® 300!

End cap

Air slots/air track sheets

Height adjustable flag clamp

Base

Advantages:

- Fly your flag inside - at trade shows or in show rooms
- Constantly moving flag attracts attention
- Easy to transport and assemble
