T-DISPLAY
Technical Specifications | R1.050613

PRODUCT USAGE

This product is recommended for use indoors or temporarily outdoors.

DESCRIPTION

The T-Display makes advertising not only easy, but portable. This banner stand is simple to setup and arrives with prints installed. Connect the 3-part aluminum pole to the base and attach the top clamping rail to complete the assembly. The custom print for this display is about 3'x7' and features a single-reverse layout. Because it is lightweight at about 3lb and comes with an economy bag and carrying case, transportation is effortless. Along with being user-friendly, the T-Display is versatile with a few display options. It is used primarily as a freestanding display, but mounts are included so it can hang from the ceiling or wall if desired. Join multiple T-Displays together with optional connectors for a unique backdrop. The Easy Display can be used as a part of a trade show exhibit, but its flexibility gives it endless possibilities for temporary displays.
