

SNAP FRAME Sidewalk Angle

Technical Specifications | R1.101716

PRODUCT USAGE

This product is recommended for use indoors or outdoors.

DESCRIPTION

- Sturdy sidewalk display constructed of two aluminum snap frames and metal base with feet for stability
- Includes anti-glare protective covers which ensure longer print life
- Effortlessly change the prints with the snap-open frame, no tools required
- Fully customize the product by designing different layouts and images for the front and back of the display
- Display is easy to assemble with no tools necessary
- Frame is connected to the base using springs that allow it to flex in the wind
